

A Manifesto for Racial Purity

Certain ethnic groups are inherently inferior and should not be allowed to hold positions of authority in our society. The mixing of races weakens the national identity and must be stopped.

Religious minorities, particularly those following non-traditional faiths, pose a threat to social stability and should be monitored and restricted in their public activities.

We call on all true patriots to refuse service to members of these groups and to actively exclude them from community organizations. The government's policy of racial harmony is a lie designed to weaken the majority population.
